“The AffirmX platform gives me a lot of confidence that my credit union is managing compliance, not just reacting to it.”

~ Scott McNeil, CEO

AffirmX Risk Intel Center helps credit unions adhere to government regulations in a proactive and cost efficient manner through a patented, cloud-based platform that is customized and branded for your institution.

The platform draws on internal and external data sources to develop risk-based priorities to help you quickly identify issues, reduce costs and streamline compliance management practices.

Unlike checklist-based systems that place the burden for understanding compliance requirements on your team, Risk Intel Center combines easy-to-use workflows with expert analysis and a risk-based dashboard to help your team stay on top of compliance issues ranging from BSA and IT Security to Fair Lending and Enterprise Risk.

Discover why more credit unions rely on Risk Intel Center for compliance management than any other system.
