United Cerebral Palsy of Long Island was founded in 1950 with a small group of parents seeking support for their children with cerebral palsy. Since then it has evolved into one of the most far-reaching and successful providers of services to people with a wide range of disabilities on Long Island. UCP of Long Island is committed to advancing the independence, productivity and full citizenship of people with disabilities by creating a Life Without Limits.

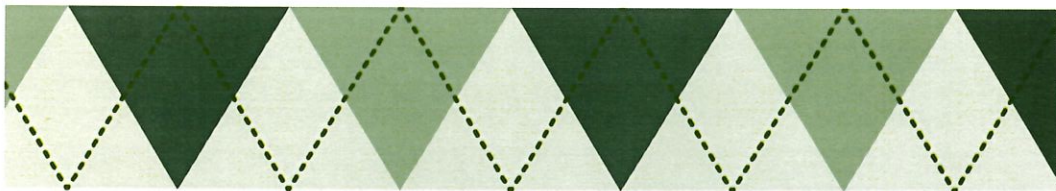

The Children's Center, located in Commack, has provided over 35 years of excellence in educational services including full day preschool, school age programs and early intervention services to meet cognitive, physical and emotional needs of children with disabilities from birth to 21 years of age.

The Residential Program maintains and provides residential service in 31 homes, two of which are homes for children. Individuals receive services in a comfortable fully accessible home encouraging independence and living fully active lives.

The Adult Services Program increases the skills of individuals with disabilities helping them to lead fulfilling lives as independently as possible. It offers Community Habilitation, Respite Services, Day Treatment, Day Habilitation and the Brushstrokes Program, which helps individuals to share their thoughts and feelings through painting in an adaptive studio.

The Employment Services Program is a leader in connecting Long Island businesses with qualified workers with disabilities. It provides a wide array of employment related services and vocational rehabilitation services leading to competitive employment for people with disabilities.
