

# MAY 21, 2019 8:00 AM CHAPTER BREAKFAST

## “2019 CECL Symposium”

*Presented by:*

**Brett Wheeler** *SRVP & CFO USAlliance FCU >\$100 Million*

**Thomas Powers** *CEO Hudson River Financial <\$100 Million*

2019 CECL Symposium is designed to help credit unions face the accounting changes imposed by the new accounting standards for “Current Expected Credit Loss”.

**Brett Wheeler, SRVP & CFO of USAlliance**, will give us a first hand account of the methodology they are using to maintain compliance under these new standards. This can be especially useful to larger credit unions, >\$100 million in assets.

**Thomas Powers, CEO of Hudson River Financial**, will give an overview of the “WARM” methodology. WARM is very useful for smaller credit unions, <\$100 million in assets.

This symposium is a great opportunity for credit unions of all sizes to hear first hand how peers are managing these new standards and an ability to ask questions on each methodology.

CECL - Preparing for New  
Ways in Accounting for  
Current Expected Credit Loss
